

## COVID-19 Emergency Support Framework

# Engagement and support call Summary Record

**St. Georges Court Healthcare Limited**

Location / Core Service address	Date
St Georges Court Care Home Russell Street , CB2 1HT Cambridge	11/06/2020

Dear St Georges Court Care Home,

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

## Assessment Area 1

### Safe care and treatment

---

**1.1 Had risks related to infection prevention and control, including in relation to COVID-19, been assessed and managed?**

---

**Yes** There were systems to assess and respond to risks regarding infection prevention and control, including those associated with COVID-19.

---

---

**1.2 Were there sufficient quantities of the right equipment to help the provider manage the impact of COVID-19?**

---

**Yes** Essential equipment, such as personal protective equipment, was available in sufficient quantities to help you manage the impact of COVID-19.

---

---

**1.3 Was the environment suitable to containing an outbreak?**

---

**Yes** You had taken steps to ensure the environment was as effective as possible in containing an outbreak of COVID-19.

---

---

**1.4 Were systems clear and accessible to staff, service users and any visitors to the service?**

---

**Yes** Systems to ensure the environment were conducive to containing an outbreak of COVID-19 were clear and accessible to people using the service.

---

---

**1.5 Were medicines managed effectively?**

---

**Yes** Service users' medicines were effectively managed, despite the increased pressures associated with COVID-19.

---

---

**1.6 Had risk management systems been able to support the assessment of both existing and COVID-19 related risks?**

---

**Yes** Systems enabled the continued management of known risks, as well as enabling the provider to respond to new and emerging risks, including those posed by COVID-19.

---

## Assessment Area 2

### Staffing arrangements

---

**2.1 Were there enough suitable staff to provide safe care and treatment in a dignified and respectful way during the Covid-19 pandemic?**

---

**Yes**            There were enough suitably skilled staff to provide people with safe care in a respectful and dignified way during the Covid-19 pandemic.

---

---

**2.2 Were there realistic and workable plans for managing staffing levels if the pandemic leads to shortfalls and emergencies?**

---

**No**             Planning for responding to staffing shortfalls and emergencies during the COVID-19 pandemic was not realistic and workable.

---

## Assessment Area 3

### Protection from abuse

---

**3.1 Were people using the service being protected from abuse, neglect and discrimination?**

---

**Yes**            People were being safeguarded from abuse, harassment and discrimination.

---

---

**3.2 Had the provider been able to properly manage any safeguarding incidents or concerns during the pandemic?**

---

**Yes**            Action had been taken to properly respond to incidents, alerts or potential safeguarding incidents at the service.

---

## Assessment Area 4

### Assurance processes, monitoring and risk management

---

**4.1 Had the provider been able to take action to protect the health, safety and wellbeing of staff?**

---

**Yes** Staff health, safety and wellbeing were protected despite the increased pressures associated with COVID-19.

---

---

**4.2 Had the provider been able to implement effective systems to monitor and react to the overall quality and safety of care**

---

**Yes** There were effective systems to monitor the overall quality and safety of care being provided at the service during the COVID19 pandemic.

---

---

**4.3 Is the provider able to support staff to raise concerns during the pandemic?**

---

**Yes** Staff were able to raise concerns and were supported to speak up during the pandemic.

---

---

**4.4 Had care and treatment provided to people been sufficiently recorded during the Covid-19 pandemic?**

---

**Yes** Care and treatment provided to people is being sufficiently recorded during the Covid-19 pandemic.

---

---

**4.5 Had the provider been able to work effectively with system partners when care and treatment is commissioned, shared or transferred?**

---

**Yes** Working arrangements and information sharing with system partners during the Covid-19 pandemic are effective.

---

### Overall summary

From our discussion and other information about this location, we assess that you are managing the impact of the COVID-19 pandemic. You gave us information about the actions you had taken to reduce the risk from Covid-19 towards staff and people living at the home. Infection control products - There was enough PPE and you had a good stock of

equipment. Staff had received guidance and training about how to use this to keep them and people safe.

Staff cover - There were enough permanent staff available and systems to obtain agency staff if needed. We spoke about developing these further to consider actions if a lot of staff were off at the same time.

Medicines were managed and you were aware of the medicines re-use scheme.

The home environment meant that people were able to isolate within their own rooms and communal areas were adapted to ensure people could maintain isolation while outside their rooms.

Management of the service - There are systems in place to oversee the service and to support staff safety and well-being. We discussed additional sources of support from Public Health England and Skills for Care and have sent you links to these web pages. You are in contact with health and social care colleagues about how you are managing during this crisis. There were different systems in place to help people stay in touch with their relatives and provide reassurance to them.
